

PHARMACISTS WITHOUT BORDERS

Medicine & Care Delivered Worldwide

Who we are & What we do

Pharmacists without Borders Germany (Apotheker ohne Grenzen Deutschland e.V.) is a **pharmacist-led humanitarian aid organisation**.

Founded in the year 2000, Pharmacists without Borders engages in the **improvement of health systems around the world**. Our competence and expertise are in demand and provided in a number of ways: we provide high-quality medicines and services to patients, organise appropriate medicines supply and storage, training and education for local people, and **work in close partnership with local Non-Governmental organisations**.

Pharmacists without Borders also has extensive expertise in the provision of **emergency relief** following natural disasters. We minimise acute medicines shortages by delivering medicines rapidly and therefore alleviate the suffering of the affected population. We prepare and **train all our volunteers** thoroughly before their deployment to the frontline.

PHARMACISTS WITHOUT BORDERS

Pharmacists without Borders is a registered **charity with more than 2.400 members** and is not only **active in developing countries**, but also runs projects in Berlin, Mainz, Frankfurt and Munich to **support refugees and homeless people in Germany**.

Volunteers in our **thirteen regional groups in Germany** share their experiences with the rest of the organisation through regular informational and **charity events**.
